

# Butler-Freeport Community Trail Improvements

**Description:** The extensive use of the Butler-Freeport Community Trail as well as erosion from severe weather has diminished the trail surface, thus requiring improvements to the trail and its drainage system. Erosion of the trail surface has also lead to a potential safety hazard for the users of the trail.

The project includes repaving portions of the existing Butler-Freeport Community Trail, between Herman Road and Marwood Road in Summit, Jefferson, and Winfield Townships, Butler County. Nearly 4.4 miles of the trail will be repaved to extend the use of the trail. To prevent potential damage from severe weather, the existing ditch along the trail will be cleaned and re-graded to create positive drainage on both sides of the trail.

**TAP Approval Amount:** \$300,440

**Total Project Cost:** \$372,360

**County:** Butler

**Sponsor:** Buffalo Township
