Title: SPC - Traffic Signal 4

Route 0

Section:

A/Q Status: Significant

Improvement Type: 00025

Exempt Code:

Est. Let Date: 5/12/22

Actual Let Date:

Geographic Limits: regional(Sponsor = SPC) SPC's Regional Traffic Signal Program

Narrative: (Sponsor = SPC) SPC's Regional Traffic Signal Program proposes to continue its mission of improving the operation and safety of the region's key arterial corridors by funding and implementing signal improvement projects that result in optimized and coordinated signal operations. Working with municipalities and PennDOT, this has been achieved with two types of projects:

- SINC-UP projects: These projects include minor equipment upgrades in addition to signal retiming. The equipment upgrades are focused on areas required for signal coordination, energy savings, and safety (communications, controllers, and indications). These projects may also include removal of traffic signals that are no longer warranted.
- SINC projects: These projects include signal retiming only for corridors and intersections that are already adequately equipped for coordination purposes.

Municipality: Freedom (BORO)

Title: Freedom Rd Upgrade - Ph A

Route 2004

Section: B28

A/Q Status: Significant

Improvement Type: 00029

Exempt Code:

Est. Let Date: 9/15/16

Actual Let Date: 9/15/16

Geographic Limits: Located on SR 2004 (Freedom Road) from SR 65 to Park Quarry Road in New Sewickley Township, Beaver County.

Narrative: Reconstruction and realignment of portions of S.R. 2004 (Freedom-Crider Road) and Crows Run Road in the Borough of Conway and New Sewickley Township, Beaver County. The project starts near the existing intersection of T-575 (Crows Run Road) and S.R. 0065 (Ohio River Boulevard) in the Borough of Conway and proceeds to approximately 1000 feet east of the existing S.R. 2004 intersection with T-606 (Park Quarry Road) in New Sewickley Township. The project will consist of reconstructing T-575 (Crows Run Road) and relocating S.R. 2004 to follow the T-575 corridor. The new roadway will be widened to include two-11' lanes with 6' shoulders. Turn lanes will be added on S.R. 0065 at the newly signalized intersection with reconstructed Crows Run Road (to be changed to S.R. 2004). A left turn lane will be added to reconstructed Crows Run Road onto S.R. 0065. A center turn lane will be added on S.R. 2004 near the intersection of Park Quarry Road and the newly named S.R. 2018. The total project is 8,910 feet in length (1.69 miles) and includes:

- 1.) Construction of new and replacement structures over Crows Run and its tributaries.
- 2.) Realignment of approximately 400 feet of Romigh Road and reconstruction of the intersection of Romigh Road and the proposed S.R. 2004.
- 3.) Realignment of approximately 800 feet of Park Quarry Road (T-606) and its intersection with S.R. 2004.
- 4.) Reconstruction of S.R. 0065 in the vicinity of the new S.R. 2004 signalized intersection.
- 5.) Relocation of four portions of existing Crows Run stream.
- 6.) Replacement of guide rail, drainage, signing, pavement marking, etc., related to the above items.

Title: PA 18 Signal Upgrades

Route 18

Section: T10

A/Q Status: Significant

Improvement Type: 00025

Exempt Code:

Est. Let Date: 2/13/20

Actual Let Date:

Geographic Limits: PA 18- City of Washington

Narrative: This project includes the replacement of the following three existing traffic signals located in the City of Washington: PA 18 (Jefferson Avenue) at SR 4022 (Wylie Avenue), PA 18 (Jefferson Avenue) at PA 844, and SR 4022 (Wylie Avenue) at Allison Road. The project also includes two signals located at PA 18 (Jefferson Avenue) at SR 8014 (I-70 Ramps) and SR 4022 (Wylie Avenue) at SR 8014 (I-70 Ramps).

The installation of the new signals will include physical improvements such as: queue preemption for I-70 ramp approaches, detection on all approaches, LED signal heads, pedestrian accommodations, and spread spectrum radio system.

The project also includes various roadway improvements (such as ADA ramps and additional lanes as necessary).

57452

MPMS #: 57452 Municipality: Donegal (TWP)
 Title: PA 31: Donegal - PA 381/711 Int Route 31 Section: X10 A/Q Status: Exempt
 Improvement Type: 00012 Exempt Code: Changes in vertical and horizontal alignment
 Est. Let Date: 3/16/17 Actual Let Date: 3/17/17
 Geographic Limits: PA 31 just west of the Donegal Turnpike entrance to just east of the PA 31 / PA 711 / 381 Intersecton.

Narrative: This project is a corridor safety improvement project along PA 31 from the Donegal Turnpike exit to the intersection of PA 31/PA 711/PA 381 in Donegal Borough and Donegal Township, Westmoreland County.

State Route 0031, Section X10 is a rural community arterial located in Donegal Borough and Donegal Township, Westmoreland County. The limits of the project are just west of the Pennsylvania Turnpike Exit 91 Interchange to east of the intersection of SR 0031 & SR 0381 South/SR 0711 South/SR 2031. The project scope is to reconstruct this section of SR 0031 to meet current design criteria and provide safety and operational improvements throughout the corridor. At the western end of the project at the Turnpike Exit, SR 0031 will be shifted to the south to increase the distance between the turnpike toll booth area and the intersection with SR 0031. A signalized continuous "T" intersection is proposed for this intersection to allow a continuous flow of eastbound SR 0031 traffic outside the control of the traffic signal and provide protected turning for entering and exiting the turnpike.

The SR 0031 and SR 0711 intersection will include designated turn lanes and a traditional traffic signal. In addition, King's Way will be relocated to be included as part of the signal creating a "plus" intersection with SR 0031 and SR 0711.

Local concern over the safety of the existing School House Road intersection with SR 0031 for the school bus traffic has resulted in its realignment to create a "plus" intersection with SR 0031 at Mountain View Road. To the west of School House Road, a vertical curve in the roadway will be cut back to provide sight distance for left turning traffic. In addition, the horizontal curve through the intersection of SR 0031 & SR 0381/SR 0711/SR 2031 will be flattened to improve sight distance. Other safety and innovative improvements will also be utilized along the corridor as appropriate. Turn lanes will be installed at several locations along the corridor as needed.

Phase	Fund	2019	2020	2021	2022	2nd 4 Years	3rd 4 Years

 Est. Let Date: 12/21/17 Actual Let Date: 12/21/17
 Geographic Limits: Penn Township, Westmoreland County.

Narrative: This project is for intersection improvements to the PA 130/Sandy Hill Road/Pleasant Valley Road Intersection in Penn Township, Westmoreland County.

The project begins 200 feet west of the SR 0130/Pleasant Valley Rd./Sandy Hill Rd (segment 0321/0355) intersection and ends 500 feet east of the SR 0130/Pleasant Valley Rd. /Sandy Hill Rd. in Penn Township, Westmoreland County. The scope of work will consist of upgrading the intersection including improving the radii, adding left turn lanes on three approaches, resurfacing, installing a new traffic signal, and updating the guide rail and drainage. PTC improved SR 0130 west of the intersection with Bridge replacement project (WB-506,MP-63.06) S-32024.
