

**2019-2022 TRANSPORTATION IMPROVEMENT PROGRAM
FOR SOUTHWESTERN PENNSYLVANIA**

APPENDIX 3

TIP FINANCIAL SUMMARY

Appendix 3. TIP Financial Summary

Federal law requires that the MPO, public transit agencies and state cooperatively develop estimates of funds that are reasonably expected to be available to support program implementation. MPOs are then required to balance the programmed costs in their TIPs at the level of anticipated revenues. To produce a fiscally-constrained TIP, the MPO first considers the projects in the existing program that already have funding commitments. After updating project costs and schedules for the committed projects, the MPO may consider other projects eligible for federal transportation funding. The MPO finalizes the proposed program by prioritizing the projects and balancing the overall program costs to the estimate of available revenues.

The documentation of the estimate of available revenues in the Commonwealth of Pennsylvania is developed in compliance with the federal regulations by PennDOT in coordination with its transportation partners (MPOs and RPOs from across the state). In its guidance document, *Pennsylvania's 2019 Transportation Program Financial Guidance*, PennDOT has established a set of formulas to ensure equitable distribution of anticipated funding. These agreed-upon formulas consider criteria such as roadway lane miles, vehicle travel, bridge condition, air quality attainment status, population, population density, senior transit ridership, transit service area, level of transit service, and accidents at rail-highway crossings. The formulas contained in *Pennsylvania's 2019 Transportation Program Financial Guidance* are hereby incorporated by reference into the 2019-2022 TIP for Southwestern Pennsylvania.

¹ A statewide reserve of \$25 million per year in federal CMAQ funds to flex to transit in accordance with agreements associated with PA Act 3 of 1997.

² The Pittsburgh BRT project includes FTA discretionary 5309 funding as noted. The total project cost is \$195,500,000 including three existing BRT-associated TIP projects and City of Pittsburgh in-kind Station Improvements. Two associated projects on the current TIP include PACAC Bus Purchases, PAAC Oakland BRT Signal Improvements, and one associated project on the current and draft TIP includes the City's Smart Spines project. The local project sponsors - Allegheny County, City of Pittsburgh, Port Authority and URA are responsible for the identified local matching funds.

³ Future project selection from state reserve funding. Approved projects will be added to the SPC TIP upon PennDOT project selection.

⁴ \$19,000,000 from the federal TIGER program has been identified in FY2019 for the I-579 Cap Park project.

⁵ The City of Pittsburgh Smart Spines System project in FY2021 includes \$10,899,318 from the federal ATCMTD program (Advanced Transportation and Congestion Management Deployment) and \$11,000,000 from the state Greenlight GO program.

⁶ The total project cost for SB/US-22 to I-79 is \$770 million over a seven year period; partial project funding has been expended in the pre-TIP period.

⁷ The total project cost for MFE/SR-51 to I-376 is \$2.16 billion over the twenty year period through 2036. Construction of the initial section (SR-51 to SR-837) should be completed by 2026 at a construction cost of \$742 million for this project section.
