List of Abbreviations and Definitions

FAST ACT	Fixing America's Surface Transportation Act
FHWA	Federal Highway Administration
FTA	Federal Transit Administration
MPO	Metropolitan Planning Organization
MPMS	Multi-modal Project Management System
NHS	National Highway System
One Map	PennDOT Public Mapping Application
PennDOT	Pennsylvania Department of Transportation
SPC	Southwestern Pennsylvania Commission
TIP	Transportation Improvement Program

Project Funding Codes

APD, APL	Appalachian Regional Commission
BOF	Bridge - Off System
BRIP	Federal Bridge Funds
BUILD	Better Utilizing Investments to Leverage Development
CAQ	Congestion Mitigation and Air Quality
CRP, CRPU	Carbon Reduction Program
EB	Equity Bonus
FFL	Federal Flood
HSIP	Highway Safety Improvement Program
HVRU	HSIP Vulnerable Road User
NHPP	National Highway Performance Program
PRTCT	Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation (PROTECT) Program
RRX	Surface Transportation - RRX Elimination of Crossing
SXF	Surface Transportation - Special Project - Federal Earmark
STP, STN, STR	Surface Transportation - Any Area in State
STU	Surface Transportation - Urban
STRSF	Federal Safe Routes to Schools
TAP, TAU	Transportation Alternatives Program

Project Phase Abbreviations

CON	Construction
FD	Final Design
PE	Preliminary Engineering
ROW	Right of Way
UTL	Utilities

Annual Listing of Projects with Federal Funding Obligated: Federal Fiscal Year 2024

The Infrastructure Investment and Jobs Act (IIJA), aka Bipartisan Infrastructure Law (BIL), was signed into law by President Biden on November 15, 2021. The law authorizes \$1.2 trillion for transportation and infrastructure spending with \$550 billion of that figure going toward “new” investments and programs. Per 23 CFR § 450.334 of the Code of Federal Regulations, States and Metropolitan Planning Organizations (such as the SPC) must publish annual lists of projects where federal funds were obligated. Specifically, states and MPOs must produce:

*“a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds...were obligated in the preceding program year. The listing shall...include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information...and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”*¹

An obligation is the Federal government’s legal commitment to pay the Federal share of a project’s cost. An obligated project is one that has been authorized by the federal agency and for which funds have been committed. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For Federal Transit Administration (FTA) projects, obligation occurs when the FTA grant is awarded. For Federal Highway Administration (FHWA) projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.

The Infrastructure Investment and Jobs Act (IIJA) also dictates that government spending on transportation should be more transparent to State and Local Officials, as well as to the public. As such, the obligated list of projects must be developed through the cooperative efforts of the state, the metropolitan planning organization (MPO) and the public transportation operators who are responsible for tracking project authorizations and obligations spend during the immediately preceding fiscal year. The IIJA established several new federal formula funding programs that had obligated funds in FY2024, including the Bridge Investment Program (BRIP), the Carbon Reduction Program (CRP), and the Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation (PROTECT) Program.

To address these requirements, this report lists all FHWA transportation projects in the SPC region that were obligated during Federal Fiscal Year 2024 (October 1, 2023 - September 30, 2024). **For transit project obligations please see the *Listing of Transit Project Obligations FFY 2024* Document.** For more information regarding projects listed in this document, please use the MPMS numbers and project descriptions provided below to look up projects on the [PennDOT One Map application](#) or the [SPC TIP Web Map](#). For more information, please contact Greg Shermeto at gshermeto@spcregion.org.

1. 23 CFR § 450.334

Southwestern Pennsylvania Commission
Regional Summary of Federally Obligated
Funds for Federal Fiscal Year 2024

The table on the following page breaks down projects in SPC's region which were federally obligated in FFY 2024 by federal funding class. The total federal funding obligated to projects during FFY 2024 was \$462,662,487 which was over \$122,000,000 more than the total obligated in FFY 2023. There was \$21,560,623 in savings from previously completed projects, approximately \$6,000,000 less than in FFY 2023, which was deobligated from completed projects and obligated to other projects.

The majority of obligated funds were for highway/bridge projects (43.35%). This does not include Federal Bridge (BRIP) projects, which make up an additional 29.22% of project funds in the region. The most significant project obligated \$54,239,632 to fund the Charles Anderson Bridge, a bridge rehabilitation and a superstructure replacement of the Panther Hollow Overpass in the City of Pittsburgh, Allegheny County, which made up 11.7% of the total obligated funds in FFY 2024.

Other significant projects that obligated funds in FFY 2024 included the Salina Bridge Replacement over the Kiskiminetas River and Norfolk Southern RR in Bell Township, Westmoreland County (\$25,261,589), the Karns Crossing Bridge Replacement on PA 68 over the B&LE and B&P Railroads and Connoquenessing Creek, in Butler and Summit Townships (\$21,240,741), the Frankfort Road Bridge replacement on Frankfort Road over Raccoon Creek in Potter Township, Beaver County (\$20,916,167), and the SR 51, Clairton Boulevard Mill and Overlay project in Pleasant Hills Borough, Allegheny County. (\$18,160,329).

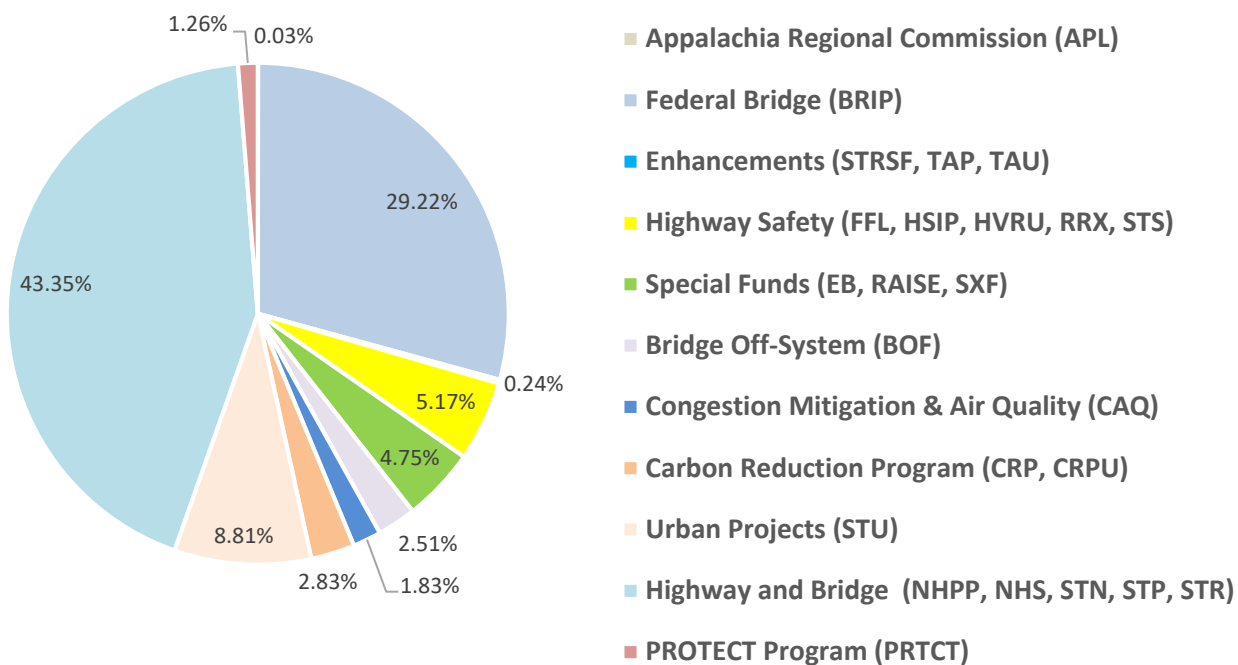

There was a decrease of projects obligating congestion management and air quality in FY 2024 with \$8,463,536 in obligated funds, \$11,100,000 less than the CAQ funds obligated during FY 2023. There was an increase in projects obligating funds on the carbon reduction program, which obligated \$13,088,881 of CRP funds for FY 2024, over \$11,800,000 more than FY 2023. The CAQ funds for FY 2023 include projects for PA 51 Adaptive Traffic Signal System along Clairton Boulevard from Peters Creek Road to Provost Road, in multiple townships though Allegheny County (\$4,300,000), the US 119 Signal Improvement project through the City of Connellsville, Fayette County (\$1,438,500), and the SR 68/SR 356 Street Signal Improvement project in Butler City, Butler County (\$340,000). The CRP funds for FY 2024 also include projects for the Marine & Landside Equipment Re-Power Program, diesel emissions reductions and alternative fuel technologies throughout multiple municipalities in the Southwestern Pennsylvania Commission region (\$6,975,000), the multipurpose pedestrian bridge project along US 22 in Burrell Township, Indiana County (\$2,816,881), and the US 119 Signal Improvement project through the City of Connellsville, Fayette County (\$816,000).

Complete funding amounts are provided in the table, and the funding distribution of obligated funds is illustrated in the pie chart. A comprehensive summary report of individual projects and obligation/deobligation amounts is included beginning on the fifth page.

TIP Projects Obligated in FY 2024

Federal Funding Class	Obligated	%	Deobligated	%
Appalachia Regional Commission (APL)	\$117,624	0.03%	\$0	0.00%
Federal Bridge (BRIP)	\$135,179,510	29.22%	-\$73,862	0.34%
